EXPERIENCE

Kiddari Studio ▶ Current

Jul 2021 — Present

Performance Marketing Manager · European Markets (Germany & France)

- Owned and optimized paid campaigns across 9 channels: Meta, Google, TikTok, Pinterest, Twitter, Snapchat, Spotify, Criteo, and Naver/Kakao for Korean market knowledge transfer
- **CAC by 32% YoY** Reduced new user
- through channel diversification (added TikTok & Pinterest) and content affinity audience targeting
- **+229%** Achieved ROAS of
- via behavioral retargeting using organic search intent signals (IP-matched)
- **+83%** Grew key title revenue
- by shifting budget allocation from short-term ROAS to 30-day cohort cumulative LTV tracking (Snowflake SQL + Singular)
- **+15% QoQ** Improved core user (Minnow+) ratio
- via Cross-Genre CRM strategy: Snowflake cohort segmentation → in-app push + Meta retargeting multi-touch
- Built AI-powered marketing automation dashboard using OpenAI Codex: integrated multi-channel ad data with Singular cohort data, auto-delivered daily Slack insight reports with anomaly detection
- Designed and executed post-ATT first-party measurement framework using Snowflake User ID tracking (signup → purchase → repurchase path)
- Led lifecycle CRM messaging map with influencer integration — first purchase CVR +23% vs. control creatives

Barm Co., Ltd.

KEY PROJECTS (Selected)

Cross-Genre UA Strategy → Core User Conversion | Kiddari Studio

- Used Snowflake SQL to analyze LTV cohorts of 17,819 paying users; discovered that 60% of core users (LTV €100+) were cross-genre (BL + Romance) consumers
- Designed multi-touch strategy: in-app push CRM (Snowflake segment extraction) + Meta paid retargeting (Custom Audience) — core user ratio +15% QoQ, avg LTV +164%

Cohort-Based Budget Reallocation | Kiddari Studio

- Shifted KPI framework from 1-day ROAS to 30-day cohort cumulative revenue (Singular + Snowflake SQL); reallocated budget to highest-LTV title → revenue +83%, #1 ranking 3 consecutive months

AI Marketing Automation Dashboard | Kiddari Studio

- Built with OpenAI Codex: unified multi-channel ad data + Singular cohort data, auto-delivers daily Slack report (prior day / 7-day avg / WoW), anomaly detection, and auto action suggestions
