

Hyunji Kim 김현지

A data-driven marketer who owns user-lifecycle CRM end-to-end to grow engagement, retention, and revenue. I think in cohorts and behaviours, build lifecycle programs for repeat purchase and dormant-user reactivation, and pull and analyze the data myself (SQL · Snowflake · cohort analysis) to proactively define and solve business problems. Comfortable with written communication in English and cross-border collaboration (German DSH-2 · English OPIc IH).

Key Achievements KEY ACHIEVEMENTS

+113%

DAU/MAU via reactivation targeting

+24%

Monthly ARPPU (repeat purchase)

+23%

First-purchase CVR (lifecycle CRM)

+83%

Key title revenue (cohort / LTV)

Kidari Studio Current

Performance & Lifecycle Marketer — retention, CRM, monetization & data analysis for a content platform in the European market (Germany & France) 2021.07 — Present

- Lifecycle CRM & retention:** designed stage-segmented messaging maps (pre-view / pre-first-purchase / pre-repurchase) that lifted first-purchase CVR **23% above** other creatives, with engagement **10x** via influencer-linked journeys
- CRM & dormant-user reactivation:** grounded in ERD understanding, diagnosed the First-Purchase bottleneck via SQL join analysis and targeted high-engagement non-payers — raising DAU/MAU **+113%** and first-purchase CVR **+13%p**
- Monetization / repeat purchase:** analyzed in-app currency (coin) payment flow and cut the retargeting window 30→14 days with payment-event A/B tests, lifting monthly ARPPU **+24%** and purchase conversions **8x+**
- Cohort & LTV infrastructure:** built Singular · SQL cohort cumulative-revenue tracking; LTV-based budget reallocation grew key title revenue **+83%** (#1 platform revenue for 3 months)
- ATT measurement strategy:** addressed post-ATT iOS limits — expanded Web-to-App and built a Snowflake-based first-party User ID analysis system, **shifting KPIs from short-term CPA to repurchase & ARPPU**
- Creative A/B testing & performance UA:** genre × format methodology lifting overall ROAS **+163%p**; media diversification cutting acquisition CPA **-32% YoY** and content-affinity targeting lifting ROAS **up to +229%**

Bareum Co., Ltd.

2020.12 — 2021.05

Digital Marketer — Marketing Agency

- Planned and ran digital marketing campaigns for a wide range of advertisers (DA / SA / UA across Meta, Google, Naver, Kakao); improved DA CTR **+2.1%p** and ROAS **+117%p**

Spigen Korea

2019.08 — 2019.11

Amazon Sales & Marketing

- Germany Amazon sales, Meta ads & external PR, A/B testing — earned a Best Seller badge and improved CTR **+1.3%p**
- Referral / engagement:** ran friend-tag social campaigns (Facebook/Instagram) where users tagged a friend to join — using existing followers' networks to extend organic brand reach

AI Utilization & Automation AI UTILIZATION

- Built a marketing automation dashboard (OpenAI Codex):** unified ad-platform + Singular cohort data into one dashboard, with a Slack daily insight bot (prev. day / 7D avg / WoW comparison, anomaly alerts, scale/cut suggestions across 6 modules)
- Creative performance dashboard:** auto-aggregates Spend · CTR · CPA · ROAS per creative, surfacing the Top 10 in real time
